Re: Christina Reder
Christina's Home and Garden

This letter is to testify to the wonderful attitude and service that Christina provides to her clients and I am so very pleased to do so. She goes out of the way to provide services to her client's to insure their utmost satisfaction.

Her work ethic is admirable and she is tenacious in following through on her client needs.

I have been so impressed with the work she has done for me and for the work she has done for friends and family whom I have referred to her.

I was also touched by her community spirit when she embarked upon a fund raising project that took a great deal of energy, dedication and work in an already very busy schedule. Christina raised funds for the Hyde Park School playground equipment. A one woman crusade!!!!

I truly cannot say enough positive things about Christina. She is one in a million!!

Warmly;

Colleen Ginter
