

Reference - Kathy & Darrell Watt

It is our distinct pleasure to provide this reference for Christina's Home and Garden.

We recently had Christina's company do a basement renovation project that involved from the ground up construction of a studio for my photography, and extra bedroom and bath; approximately 75% of our basement space.

Working with Christina is a great experience. Finally, a contractor who cares about the client! She is professional, and personable. As we got to know her we also learned how community spirited she is.

She demonstrates that dedication with enthusiasm, energy and determination by engaging and supporting local business; and performing random acts of kindness when she sees the opportunity.

More importantly, as with some projects problems may arise, large or small Christina's problem resolution skills are exemplary, again with the customer's best interest at heart. She is fair and will go the extra mile if required. She is hands on making sure that the workmanship is meticulous and meets her standards, by following up with her team and the customer, making comments and corrections as needed.

We are novice renovators, and we have learned a lot from this project. Christina's patience is appreciated. We look forward to working with her in the future as we make our 30 year old bungalow an interesting place for us to enjoy our retirement.

Sincerely,
Kathy and Darrell Watt
